

Comtech Research LLC

Quality Ionizers and other

Air Purification Equipment

Are allergies
keeping you from
feeling like this?

Ions are charged particles in the air that are formed in nature in different ways. It is the negative ion of oxygen that affects us positively. **Refreshing negative ions** (that is, *negative-charged ions*) in a room act as air purifiers, causing dust, pollen, mold, smoke, and many other allergens to stick together and fall out of the air, to the floor, or other surfaces. Among other things, they can make the air you breathe more pure and allergen-free.

Our IG-133-series models feature: *High ion output* and high negative ions per cc, but almost undetectable levels of ozone. Compact design and low power requirement. *Durability*: We still have the first ionizers we ever built, and they still put out the same level of negative ions as they did when they were first built.

Comtech Research has been in business since 1989. And **helping people** is our #1 priority, *not* profits. Our motto has always been Take care of the customer and the business will take care of itself, and it works.

We firmly believe in the products that we offer for sale here. In fact, all of our IG- series ionizers, the DustGrabber, and the negative ion emitters were originally developed by us for our own personal use. We manufacture them right here in the USA, in our own facilities in the Ozark Mountains of Missouri.

The Happy Machine™

Model IG-133A

\$164.95

Top quality, long-lasting room ionizers generate a high, optimum level of negative ions in your living environment, while effectively removing allergens. Cleans and purifies the air using negative ionization of oxygen in your room, effectively removing dust, pollen, mold spores, soot, and other allergy-causing particulates. Superior air purification compared to expensive HEPA filters or other types of air purifiers. **No fan and no noise**, yet emits a breeze of high-density negative ions you can feel. **No filters to replace—ever.** Advanced solid-state internal electronics are exceptionally reliable, safe, and produce no harmful EMF radiation. Safe to operate, internally fused, with built-in sealed multiple electronic protection devices. *5 year warranty.*

IG-133DG

A combination of the IG-133A and DustGrabber™ units.

\$204.95

Includes the long-life CFE-2 conductive filament negative ion emitter at no extra charge. Built-in DustGrabber™. Unique type of electrical field near the unit silently attracts more airborne particles and allergens **without generating undesirable positive ions or harmful EMF.** Helps reduce or eliminate the accumulation of dust and dirt on nearby objects or surfaces. Completely quiet and very efficient. Produces approx. 100 trillion high-density negative ions per second. *5 year warranty.*

High-output 12 volt DC negative Ion Generator helps remove dust, pollen, smoke, pet dander, mold spores, and other allergens from the air in your vehicle. Freshens, purifies, and ionizes the air in your automobile or truck using negative ions and a *tiny amount* of ozone to clean the air. For car, truck, marine or other vehicle use. Unlike some car “ionizers”, this model produces a small breeze that actually consists of high-density negative ions. Quality designed and built. Will not interfere with vehicle radio reception. 1 year warranty. **\$69.95 Auto Mate AS1250BN**

Air Tamer \$99.95

Personal Wearable Ionizer

• **A302: Over 21 days battery life if operated 7 days a week for 8 hours or 7 continuous days of run time on two batteries.** Batteries: Two inexpensive type CR2025 3 volt coin cells (included).

• Advanced Ionic technology emits a constant stream of healthy negative ions that help keep airborne allergens and pollutants away from your personal air space, giving you a zone of healthier, cleaner air.

Extremely long-life graphite fiber Ion Emitter. The same time-proven, advanced space-age material as our CFE emitters on our IG-133-series room ionizers.

Miniature air purifier is only 1.3" wide x 0.9" deep x 2.9" tall.

Ultraviolet Air Probe Sanitizer™

Whole –House Air Purification System

Model E-200 with Dual UV-C probes

Only \$599

Easily installs near cooling coil (shown above in central air conditioning or heating system.

- Ozone-free
- Destroys mold spores, allergens, odors, and germs as air circulates past the powerful UV lamps
- Makes the air in your rooms smell fresh and clean
- STOPS mold, algae, slime, and bacteria growth inside your air conditioner.

Each kit contains: 2 petri dishes, 2 bottles of Easygel, color brochure and instructions. Only \$19.95

This test kit will give you a good idea of general air quality in your home or allow you to conduct a

before and after test.

Customer Testimonials

“I wanted to thank you for the promptness of your order and wanted to wait to write you until I had use the ion machine for about a month to get a good feel for if it made any difference in the way I feel. I can definitely say that I wake up with more energy and in general, just plain feel better!!! In fact, so much better that I would really like to have one of these machines with me all the time—do you carry any models that can be used in the car or a model that is easily transported?”

Ms J.A. Lebanon, TN

“Even in this low-humidity environment, I can definitely notice a change in the quality of air in my apt. I was actually clearing my throat for the first two days the unit was on, as the dust and air conditioner “gunk” was cleared by enhanced cilia motion in my throat, besides there being MUCH less fine dust in the air to continue to clog lung tissue

in the first place. Yes, the dust is now visible on the unit and I’ve already had to clean it. That’s how bad it is here. I also sleep MUCH better. Good sleep is VERY important to me.” Mr J.F., Las Vegas, NV

“The 133a [ionizer] is working nicely in the vicinity of by PC with the CFE-2 emitter. Your 133a is my favorite all-time ionizer, having owned 6 different models”. Mr E.S., DePere, WI

These are all unsolicited comments about our IG-133x series of room ionizers. There are many more on our web site.

Feel Good Again. Try one for only \$144.95

How To Order

There are 2 ways to order:

1. **24/7 Safe Online Shopping.** Most items are stocked: orders placed before 1:00 PM CST *usually* UPS the same day.
2. **Toll-Free Order Line** 1-866-IONIZER or 1-866-466-4937

Office hours 9 AM to 5 PM Central time M-F

Mailing Address:

Comtech Research LLC
352 Lawrence 1127
South Greenfield, MO 65752

Quantity Discounts: 10% discount when ordering more than one room ionizer at a time online. *Dealers welcome.*

*60—day money—back guarantee. 5 year limited warranty on most products. High-output ionizer orders include a **free IDN-1 negative ion detector.***
